

PEDIATRICS ASSOCIATES OF LAWRENCEVILLE LLC

BOLD, BRIGHT AND JUST RIGHT

Bringing in some fun for everyone.

Find out how we put the “fun” in functional for the patients, physicians, and staff at a much-loved pediatric practice’s new office suite.

SUMMARY

For many, if you’ve seen one pediatric medical office you’ve seen them all. Typical colors. Typical furnishings. Typical finishes. But Pediatrics Associates of Lawrenceville (PAL), is anything but typical. So, PAL turned to us not once, not twice, but three times – this time to help them make their distinctive mark on a new office suite. Their only request? Create a space that’s light, bright, and fun for all. Here’s how LeVino Jones delivered.

CHALLENGE

High ceilings and lots of glass may be a plus for some, but they were a definite negative here. The combination of those two elements created in an echoey space that was anything but conducive to calm and pleasant patient care. And because PAL welcomes parents, teens, children, and infants, the space needed to be inviting to a wide range of age groups.

SOLUTION

From paint to tile to seating, we took great care in choosing easy-clean finishes and durable furnishings. First, we bathed the suite in calming neutrals, starting with luxury vinyl flooring, and ending with walls painted in a lighter yet coordinating shade. Then we strategically added smile-making pops of vibrant orange, lime, and aqua, giving the space a decidedly non-traditional look and feel. Acoustical, waffle-fry-style panels in varying shapes and colors toned down the noise factor while adding a much-needed punch of color. Then we finished the space with metal-looking plastic chairs, easy-clean decorative panels at check in and check out, and vinyl-upholstered seating in an array of shapes and sizes.

RESULTS

Not only did LeVino Jones create an unconventional medical suite that satisfies the many ages and stages of PAL’s clients and patients, we delivered more charm, cheerfulness, and cleanability than they expected.

OUR SERVICES

Finishes & Finish Plans
Decorative Lighting & Suspended
Acoustical Panels
Furniture Consultation
Construction Administration

TEAM

Client:
Dr. Anu Sheth, Harriet Welborne – PAL
Project Manager:
Sandy Boyette – LeVino Jones
Contractor:
Name – Viacon

“ ”

Choosing to work with LeVino Jones for the third time was an easy choice. We love our new space. More importantly, our patients do, too.
